

TAERIJAY 아기사자 캐릭터 — Kling AI 이미지 생성 프롬프트

TAERI(생후 500일, 오렌지색) × JAY(생후 1179일, 핑크색)

디즈니-픽사풍 3D 애니메이션 렌더링 기법 참고 (캐릭터 디자인은 TAERIJAY 고유 창작)

색상 구성 노트

TAERI는 오렌지(#F16B24, TAERIJAY protocol 채널 시그니처 컬러와 동일 계열), JAY는 핑크 톤으로 설정해 자연스러운 사자 색이 아닌 브랜드 마스코트 컬러로 확실히 구분했습니다. 두 색 모두 겹치지 않도록 명도·채도 차이를 크게 뒀습니다. 버건디 대신 핑크를 선택한 이유는 아기 캐릭터 톤에 더 밝고 친근하게 어울리기 때문입니다 — 버건디를 원하시면 언제든지 교체 가능합니다.

1. TAERI — 오렌지색 아기 암사자 (생후 500일)

Disney-Pixar style 3D animated character render, warm cinematic lighting, soft stylized fur texture, large expressive amber eyes with detailed reflections – same rendering quality as a modern 3D animated feature film. A young female lion cub character named TAERI, approximately 500 days old (a very young cub, still round and soft with baby-like proportions – big head relative to body, chubby paws, short fluffy fur, small round ears). Her fur is a vivid warm orange color (#F16B24-inspired), solid and vibrant, not a natural lion tan – a bold brand-mascot color. Playful curious expression, sitting pose, tail curled gently. Warm golden-hour lighting, soft rim light on the fur. Plain neutral light gray studio background, completely empty with no props, no decorations. Vertical portrait composition, high-quality realistic 3D character design, no text or letters anywhere in the image.

2. JAY — 핑크색 아기 암사자 (생후 1179일, 언니)

Disney-Pixar style 3D animated character render, warm cinematic lighting, soft stylized fur texture, large expressive amber eyes with detailed reflections – same rendering quality as a modern 3D animated feature film. A young female lion character named JAY, approximately 1179 days old (noticeably older and larger than a young cub – leaner and more elongated body, longer legs, more defined facial features, still youthful but clearly more grown and mature than her little sister).

Her fur is a soft vivid pink color, solid and vibrant, not a natural lion tan – a bold brand-mascot color, clearly distinct from her sister's orange. Confident gentle expression, standing pose, protective older-sister presence. Warm golden-hour lighting, soft rim light on the fur. Plain neutral light gray studio background, completely empty with no props, no decorations. Vertical portrait composition, high-quality realistic 3D character design, no text or letters anywhere in the image.

3. 함께 있는 장면 (TAERI + JAY, 선택 사용)

Disney-Pixar style 3D animated character render, warm cinematic lighting, soft stylized fur texture – same rendering quality as a modern 3D animated feature film. Two sister lion characters together: TAERI, a very young orange-furred cub (approximately 500 days old, round soft baby proportions, big head, chubby paws, vivid warm orange fur), and JAY, an older pink-furred young lion (approximately 1179 days old, leaner more grown body, longer legs, vivid soft pink fur), sitting close together affectionately, JAY gently nuzzling or watching over TAERI in a warm sisterly moment. Both have large expressive amber eyes. Warm golden-hour lighting, soft rim light on the fur. Plain neutral light gray studio background, completely empty with no props, no decorations. Vertical portrait composition, high-quality realistic 3D character design, no text or letters anywhere in the image.

참고사항

- 프롬프트 안 색상 코드(#F16B24)는 참고용 지시이며, 실제 렌더링 결과의 정확한 색상은 Kling 생성 결과에 따라 달라질 수 있습니다.
- "no text, no letters"를 포함해 오타자/불필요한 텍스트 생성을 방지했습니다.
- 배경은 중립 스튜디오 배경으로 통일해, 추후 다른 배경(예: 서울 랜드마크, TAERIJAY 브랜드 배경)과 합성하기 쉽도록 했습니다.
- TAERI와 JAY의 나이 차이(500일 vs 1179일, 약 3.2세 vs 약 1.4세 어림 환산은 아님 — 실제 일수 그대로)를 체형·비율로 시각화했습니다: TAERI는 아기 특유의 큰 머리·툭툭한 몸, JAY는 더 자라고 날씬한 형태.
